Methodism, also called the Methodist movement, is a group of historically related denominations of Protestant Christianity which derive their doctrine of practice and belief from the life and teachings of John Wesley. George Whitefield and John's brother Charles Wesley were also significant early leaders in the movement.

Methodist Church history traces back to the early 1700s, where it developed in England as a result of the teachings of John Wesley. Even though he is named co-founder of Methodism, Wesley remained a member of the Church of England until his death and never wished to form a denomination separate from the Anglican Church .

Rev. Dr. Levi C. Williams was ordained in 1980 in the Liberia Annual Conference of the United Methodist Church. This rich history of the United Methodist Church in Liberia documents the powerful role the church as and can continue to play in shaping civil society.

The Independent Methodists have never been a large denomination, and even in the Northwest of England, their heartland, their history is little known. John Dolan's book provides the definitive history of Independent Methodism from its beginnings shortly after the death of John Wesley. The Author describes the formative influences in the first half of the nineteenth century - Methodist, Quaker and Revivalist - that shaped the movement, giving it a distinctively lay character unusual in Methodism. The social and political factors that affected its development, such as the Peterloo Massacre, the Beerhouse Act and Chartism are explored. The early Independent Methodist societies arose from breaches in Wesleyan Methodism over involvement in radical politics and the refusal to allow writing to be taught in Wesleyan Sunday Schools. Other societies came into being through the attraction of a 'free' ministry, particularly in communities where poverty was prevalent; this attracted some dissident Primitive Methodists. In the second half of the nineteenth century, Independent Methodism took on the characteristics of a denomination, with a connexional structure. Dr Dolan examines the involvement of the Independent Methodists in wider society and their contribution to public life. Five Independent Methodists became MPs, while many others held civic office as mayors, aldermen and councillors. For over a hundred years, the denomination has involved itself in the ecumenical movement, climaxing with the decision in 2004 to enter into a covenant partnership with the Baptist Union of Great Britain. Dr Dolan explores many aspects of Independent Methodism, including its theology, which veered between conservative evangelicalism and theological liberalism. He also shows how attitudes towards ministry have changed over 200 years. From the Foreword by Professor David Bebbington: "For over two centuries Independent Methodists have maintained their distinctive threefold standpoint. John Dolan, one of their number, has written a comprehensive study of the movement. It has entailed tracking down the primary sources, published and unpublished, for a host of autonomous chapels, many of them extinct, and making a sustained analysis of the developing trends in their corporate life. The task has been pursued with an acute awareness of the changing social and religious climate they inhabited. The resulting account is thorough, persuasive and illuminating. One of the most fascinating pieces in the Evangelical Nonconformist mosaic has now received its due."

Hempton explores the rise of Methodism from its unpromising origins as a religious society within the Church of England in the 1730s to a major international religious movement by the 1880s.

Explores the emergence of African Methodism within the black Atlantic and how it struggled to sustain its liberationist identity.
