"When is it the best time to publish?" "What are drafting and freewriting and why are they important?" "Do you need to be very knowledgeable to publish?" "Why are some students more successful in publishing than others?" "Why am I afraid to write?" These are some questions that you will find answers to in "The Graduate Student As Writer: Encouragement for the Budding Scholar." As graduate students, you may feel the pressure to write and publish. You may compare yourselves to peers who have already published. Or you want to improve your chances of finding an academic position after graduation. However, the process of writing and publishing is not straightforward and seldom discussed amongst students, leaving many to stumble along and figure things out alone.If you are looking for some heart-to-heart talk from one graduate student to another on the mindset, skills, and process that are needed for effective and efficient writing and publishing, this book is for you.This book simplifies the writing process into four stages: Drafting, Feedback, Rewriting and Editing. It maintains that a graduate student is not merely training to be an academic, but is also a writer and artist. It also addresses misconceptions about writing that can hinder your progress, such as thinking that you must have it all together before you can begin.This book is written with the graduate student from a Social Science field in mind, but students of all fields will find its contents applicable.If you feel discouraged that you're not making progress in your writing, this book with chapters in bite-sized readings will encourage you and give you insights into your fears and inspiration to uplift you.Chapters of the book include: "Writing as a Tool", "Begin Writing at Every Stage of your Graduate Studies", "Start Small Wherever You Are", "Fear of Feedback", and "Value and Enjoy the Process, Not Just the Outcome."

Using rich examples and engaging pedagogical tools, this book equips students to master the challenges of academic writing in graduate school and beyond. The authors delve into nitty-gritty aspects of structure, style, and language, and offer a window onto the thought processes and strategies that strong writers rely on. Essential topics include how to: identify the audience for a particular piece of writing; craft a voice appropriate for a discipline-specific community of practice; compose the sections of a qualitative, quantitative, or mixed-methods research article; select the right peer-reviewed journal for submitting an article; and navigate the publication process. Readers are also guided to build vital self-coaching skills in order to stay motivated and complete projects successfully. User-Friendly Features *Exercises (with answers) analyzing a variety of texts. *Annotated excerpts from peer-reviewed journal articles. *Practice opportunities that help readers apply the ideas to their own writing projects. *Personal reflections and advice on common writing hurdles. *End-of-chapter Awareness and Action Reminders with clear steps to take.
