The eighth book in the bestselling British madcap time-travelling series, served with a dash of wit that seems to be everyone's cup of tea. Behind the seemingly innocuous facade of St. Mary's Institute of Historical Research, a different kind of academic work is taking place. Just don't call it "time travel"—these historians "investigate major historical events in contemporary time." And they aren't your harmless eccentrics either; a more accurate description, as they

ricochet around history, might be unintentional disaster-magnets. The Chronicles of St. Mary's tells the chaotic adventures of Madeleine Maxwell and her compatriots—Director Bairstow, Leon —Chief— Farrell, Mr. Markham, and many more—as they travel through time, saving St. Mary's Institute (too often by the very seat of their pants) and thwarting time-travelling terrorists, all the while leaving plenty of time for tea. You think you're having a bad day? Max is trapped in the same deadly sandstorm that buried the fifty thousand-strong army of the Pharaoh Cambyses II, and she's sharing the only available shelter for miles around with the murdering psychopath who recently kidnapped her and left her adrift in time. She's no safer at St. Mary's. Tragedy strikes—not once, but several times—and with no Leon, no Markham, and no Peterson at her side, Max's personal life slowly begins to unravel.

The true operatic tragedy of Maximilian and Carlota, the European aristocrats who stumbled into power in Mexico—and faced bloody consequences. In the 1860s, Napoleon III, intent on curbing the rise of American imperialism, persuaded a young Austrian archduke and a Belgian princess to leave Europe and become the emperor and empress of Mexico. They and their entourage arrived in a Mexico ruled by terror, where revolutionary fervor was barely suppressed by French troops. When the United States, now clear of its own Civil War, aided the rebels in pushing back Maximilian's imperial soldiers, the French army withdrew, abandoning the young couple.
