Answer Key Chapter 8 Principles of Economics 2e | OpenStax economic analysis! 1.1 What are the "Economy" and "Economics"? Every society must provide goods and services for the welfare of its citizens. The economy consists of all of the activities involved in the production and distribution of these goods and services. Economics, as the study of the economy, seeks to address three basic questions:

An Overview of Economics 1 INTRODUCTION. Economics is the study of how society allocates limited resources to the production of goods and services to satisfy unlimited human wants. There are two main branches of economics: microeconomics and macroeconomics. Microeconomics deals with the analysis of individual parts of the economy.
