~~Corporate Social Reporting: A Rebuttal of Legitimacy ...~~

Social responsibility accounting - sometimes referred to as sustainability accounting or corporate social responsibility accounting - is the concept of integrating nonfinancial measures into financial reporting.

Historically, the study of corporate social responsibility (CSR) reporting has largely been within the context of Western economies. However, in the wake of highly publicized incidents such as Bhopal and the struggle of the Ogoni people in Nigeria, many large corporations now claim to be taking steps to improve their environmental and social performance within developing countries. Using the lens of stakeholder theory, this book examines whether the current practice of CSR reporting in developing countries is motivated by a desire to discharge accountability to all relevant stakeholders or whether it is being driven by the imperative of advancing corporate economic interests. While concepts like CSR reporting have become more fashionable, they vary widely in different national contexts; this book therefore clarifies the types and roles of CSR reporting and the

Bookmark File PDF Corporate Social Reporting

underlying corporate motivations. The author considers the current CSR reporting practices in a number of developing countries, with particular attention given to illuminating a case study of Bangladesh.

Ideal as an introduction and as a quick reference, *Key Concepts in Critical Management Studies* explores the essential concepts used within the field today. Specially edited and written by a range of international experts, key ideas are succinctly explained and illustrated beyond a simple definition. Further reading suggestions and cross-referencing provide the reader with means to develop their knowledge further. With over 50 entries, from Actor Network Theory to Utopianism, readers have instant access and explanation of the most influential concepts in CMS literature.

In recent years, Corporate Social Responsibility (CSR) reporting in China has been experiencing a rapid development and the number of social reports issued by Chinese enterprises shows a sharp increasing trend. This book investigates the evolution of such reporting practice in the country and the reasons behind it. In addition, it also examines the reporting quantity and quality of Chinese enterprises by applying the GRI (Global Reporting Initiative) as an evaluation tool. In response to policy documents so as to obtain the government's

Bookmark File PDF Corporate Social Reporting

recognition and to strive for more resources, state-owned enterprises, private enterprises and foreign-invested companies have made substantial efforts in social reporting in terms of quantity and coverage. However, it appears that there is still room for enhancing the quality of disclosure. The book also highlights the central government's economic, political and social roles in promoting, encouraging and controlling the development of CSR reporting.

Reporting organizations' corporate social responsibility activities is difficult - a lack of regulation means that the communication of these activities varies significantly and there is a multitude of ways in which mistakes can be made. The author provides the tools and insights required to produce investor-friendly CSR reports and includes a chapter showing how the investors can integrate CSR in their quantified analysis of investment-opportunities. Features include formulas, conversion standards and CSR note tables which enable the book to be used as a practical handbook as well as in the classroom. Written by an experienced compliance officer with years of experience in reporting CSR, this book is an easy-to-follow guide for practitioners and students and will be required reading for students of accounting, financial reporting and auditing as well as those in industry who want to improve their organization's reporting standards.

The role of Corporate Social Responsibility in the business world has developed from a fig leaf marketing front into an important aspect of corporate behavior over the past several years. Sustainable strategies are valued, desired and deployed more and more by relevant players in many industries all over the world. Both research and corporate practice therefore see CSR as a guiding principle for business success. The “Encyclopedia of Corporate Social Responsibility” has been conceived to assist researchers and practitioners to align business and societal objectives. All actors in the field will find reliable and up to date definitions and explanations of the key terms of CSR in this authoritative and comprehensive reference work. Leading experts from the global CSR community have contributed to make the “Encyclopedia of Corporate Social Responsibility” the definitive resource for this field of research and practice.

This book explores the key issues of corporate social responsibility (CSR) and reporting as applied to sports organizations, with particular attention to the Italian environment. It is divided into two parts, the first of which examines the general principles and

Bookmark File PDF Corporate Social Reporting

reporting tools of CSR; these represent the reference point for all types of organization, including sports organizations. The coverage encompasses the evolution of CSR and the latest standards issued by authoritative international public and private institutions. The aim is to provide readers with a sound basis for understanding fully the application of these principles and reporting tools within the world of sport. The second part is devoted to a detailed analysis of the CSR strategies and social reporting initiatives adopted by sports organizations. Although the focus is primarily on Italian sports organizations, due attention is also paid to world benchmarks. In particular, the analysis examines the CSR strategies and reporting initiatives developed by international and Italian sports federations and by two international professional football clubs. The book will be of wide interest to academics, students, and practitioners.

The essays collected here specifically examine the new trends of sustainability performance and reporting. They provide theoretical argumentation and evidence about sustainability performance, and determinants of its voluntary disclosure and external assurance. The book will interest companies, managers, shareholders, stakeholders and
