GDP per head is not only an economic indicator, but is widely used as a welfare indicator. This use not well founded in economic theory. The paper compares income per head with a three groups of alternative indicators: 'extended national accounts', social indicators, and indicators of subjective well-being.

Discussion Papers in Economics -

University of Nottingham

Discussion papers differ from standard working papers in that they are more broadly accessible and offer a more balanced perspective. While partly based on original research, they place the analysis in the wider context of the literature on the topic and also explicitly consider the policy perspective.
