- Learn how to communicate with your baby so you can ask them to go to sleep rather than relying on pot luck. The skills a baby needs regarding sleep include: learning to cope with being put into their cot awake, acceptance of parental guidance, the ability to cope with parents leaving the room before they go to sleep, learning to be comfortable in their own space, the ability to be still. After years of working closely with thousands of families, Sheyne wrote her first book, Dream Baby Guide ...
