This fully updated and expanded third edition of a classic text provides a comprehensive introduction to key theory, knowledge, research and evidence relating to practice learning in social work and social care. It outlines the theories that underpin social care practice, the main assessment models and interventions, and also offers guidance on the effective implementation of assessment across a range of professional contexts. Contributors from research, policy-making and practice backgrounds offer guidance on how to apply policy and research findings in everyday practice while ensuring that the complex needs of each individual service user are met. This third edition also features new chapters on group work, social pedagogy and personalisation. The Handbook for Practice Learning in Social Work and Social Care is an essential resource for ensuring effective evidence-based practice which will be valued by students, educators and practitioners alike.

This book provides a detailed and comprehensive guide to working with risk. It begins by looking at

File Type PDF Edinburgh Parenting Assessment Framework 1 1 Introduction

notions of need, vulnerability and protection and looks at the theoretical concepts of each before applying them to practice. By using this combination of theory and practice the authors are able to integrate policy for a wide range of services users, from older people to children, families and younger adults. Case studies accompany and illustrate each method and the reader is invited to engage in a number of exercises and activities to consolidate learning.

This book identifies and analyses differences between the four UK nations in the way child protection systems are being developed, thought about and put into practice. Covering key areas such as inter-agency working and the role of local safeguarding children boards, it draws out important implications for policy and practice across the UK.

'A key text in the exploration of social, political and historical changes around child social care. It offers a broad overview of key themes in all areas and aspects of child care within the UK. It is an essential resource for students studying the degree in social work and will support and encourage their knowledge of fundamental issues' - Sarah Thomas, Programme Director BA (Hons) Social Work, University of Wales Institute, Cardiff This book offers an authoritative overview of child care policy and practice in the UK. It covers assessment and family support services, understanding child maltreatment and protection, the care of looked after children, including the contribution of adoption, foster and residential care, services for those leaving care and barriers facing

File Type PDF Edinburgh Parenting Assessment Framework 1 1 Introduction

disabled children and their families. Child Care Policy and Practice reflects the complexity and contested nature of children's needs, rights and interests and relationships between family and state. It analyses relevant debates and research and highlights practice issues and dilemmas. Readers are also directed to sources of further information on topics they may wish to explore in more depth. At the end of each chapter, there is guidance for further reading, resources for practice and questions for discussion. The book is aimed at social work practitioners and students, both qualifying and post-qualifying, at allied professionals working with children and families and at undergraduate students in Childhood Studies or Social Policy.

The application of assessment frameworks hinges on human qualities and skills which are naturally prone to bias and inconsistency. Making Sense of Child and Family Assessment aims to support workers in analysing and making sense of the information gathered, and increasing accuracy and empathy in assessing the needs and risks for vulnerable children and young people. This book offers best practice guidance on how to analyse information gathered during the assessment of children and young people and their families. Good assessments take time and need to be appropriately resourced. A range of analytical tools are also needed if practitioners are to present assessments of children's needs which lead to meaningful care plans and improved outcomes. Helm introduces the key messages emerging from policy and research, and provides insights into today's multi-disciplinary practice. Professionals working in child

File Type PDF Edinburgh Parenting Assessment Framework 1 1 Introduction

welfare and protection roles, such as social workers, health visitors, midwives and teachers will find this practical guide to analysis invaluable in interpreting needs and outcomes.

With contributions from internationally recognized experts, this edited volume presents original thinking on the theory, research and practice surrounding child neglect. Comprehensive and current, the book takes an expansive look at how we can better address this prevalent issue. It explores the effects of neglect on the developing child and makes recommendations on how to identify neglect at the earliest opportunity. It considers common causal and contributing factors in neglect cases and the impact of these on children. The book details effective intervention techniques alongside case vignettes and shows how change can be achieved. It highlights the importance of supporting parental care and developing parental responsibility in families where children are neglected. Chapters provide in-depth descriptive examples and include a summary of learning points. Including practical suggestions for combating child neglect, this is an essential guide to best practice for students and practitioners working with children and families. The book also contains useful insights relevant to researchers and policy makers.

Drawing on interviews with social workers and their managers, and families and young people themselves, the authors of this important book show how the principles embodied in the Assessment Framework have been applied to social work practice. This book should be read by all professionals working

File Type PDF Edinburgh Parenting Assessment Framework 1 1 Introduction

to promote the welfare and well-being of children.

'A unique and innovative approach to family issues in psychiatric disorders. The authors tackle a broad range of complex issues that are rarely covered in the depth or with the expertise that this volume brings. This book is a major contribution to the field and provides the kind of international perspective that enhances our understanding of the complex dimensions of psychiatric disorders from a multigenerational and cross-cultural perspective.'

From a review of the first edition by Carol Nadelson, Professor of Psychiatry, Harvard Medical School. It is indisputable that mental illness in a parent has serious and often adverse effects on the child, something which is surprisingly unreflected in clinical service provision. In this completely rewritten second edition, an international, multidisciplinary team of professionals review the most up-to-date treatment interventions from a practical, clinical point of view. It is essential reading for all professionals dealing with adult mental illness and child-care.

The Law and Social Work is up-to-date and contemporary. It analyses current debates around confidentiality, State intervention and the legal issues impacting on children, young people, families and vulnerable adults. It also offers an insightful discussion of central social work themes, integrating:

- Ethics and values
- Discrimination
- Assessment and intervention
- Accountability

Charting the changes in law and practice over the past ten years, this new edition provides thematic accounts of key areas of development. It also reflects the pace of

File Type PDF Edinburgh Parenting Assessment Framework 1 1 Introduction

change in a number of spheres, including youth justice, mental health and discrimination law. Written by leading academics and social work practitioners widely published in their fields of expertise, this is an authoritative text for social work students, practitioners and professionals across the health and social care spectrum.

Request a FREE 30-day online trial to this title at www.sagepub.com/freetrial What is unique about the process in the discussion of healthcare and interventions to use when working with families? What assessment tools provide guidance for healthcare providers as they determine interventions for families in their care? What are the changing dimensions of contemporary family life, and what impact do those dimensions have on health promotion for families? How is family healthcare changing in terms of practices, delivery systems, costs and insurance coverage? Students are able to explore these questions and more in the Encyclopedia of Family Health. Approximately 350 signed articles written by experts from such varied fields as health and nursing, social and behavioral sciences, and policy provide authoritative, cross-disciplinary coverage. Entries examine theory, research and policy as they relate to family practice in a manner that is accessible and jargon-free. From 'Adolescent Suicide' and 'Alternative Therapies' to 'Visitation during Hospitalization' and 'Weight Problems and Genetics', this work provides coverage of a variety of issues within a family context. The Encyclopedia of Family Health provides a comprehensive summary of theory, research, practice, and policy on family health
