Here are a few examples. Rob Vincent's dream journal – a pretty basic blog-style dream journal. He doesn't go into a lot of detail analyzing his dreams, but he often notes his general mood for the day after having the dream. Andy Zaitsev's dream journal – a collection of dreams recorded at various points from 1996 to 2003. Notice that he separates his dreams into lucid and non-lucid, and does a little bit more post-dream analysis.

The British author shares the "strange . . . inner layers of his playful, guilty imagination" in this glimpse into a brilliant novelist's subconscious (The New York Times). Culled from nearly eight hundred pages of the author's "dream diaries" kept between 1965 and 1989, this singular journal reveals "the feverish inner life of an intensely private man, providing an uncanny mirror-image of [his] novelistic obsessions, insecurities, and moral preoccupations" (Publishers Weekly). In what Greene calls My Own World—as opposed to the Common World of shared reality—he accompanies Henry James on a disagreeable riverboat trip to Bogota, is caught in a guerilla crossfire with Evelyn Waugh and W. H. Auden, strolls in the Vatican garden with Pope John Paul II who's doling out Perugia chocolates like hosts, offers refuge to a suicidal Charlie Chaplin, and stages a disastrous play in blank verse for Elizabeth Taylor and Richard Burton. He also shares his headspace with Goebbels, Castro, Cocteau, Queen Elizabeth, D. H. Lawrence, and talking kittens. And the landscape is just as wide: from Nazi Germany to Haiti to West Africa to Bethlehem 1 AD and to Sweden where he seeks treatment for leprosy. Greene is a criminal, spy, lover, assassin, witness, and writer. Encompassing life, death, war, feuds, and career, and alternately absurdist, frightening, funny, and revealing, these fertile imaginings—many of which found their way into Greene's fiction—comprise nothing less than "an alternate autobiography . . . a uniquely candid self-portrait" of one of the giants of English literature (Kirkus Reviews).

Dreams are windows to the soul, as they say. And, just as a daily journal can help you process your emotions, so, too, can a dream journal.Our dreams are often informed by the events in our lives. For example, you may have had anxiety over a big presentation at work, and found that same performance anxiety reappears in your dreams. Even if the source of the anxiety is different, your subconscious may be trying to help you work through that "emotional unfinished business" and process it, so that you wake up with fewer worries in the morning.By keeping a dream journal, you'll have a record of your recurring dreams and the themes and patterns within. And, you may even find it easier to understand those feelings that you can't quite put your finger on during the day. Identifying patterns in your dreams and subconscious thoughts can make it a lot easier to process them because you'll gain a deeper understanding of yourself. After all, it's much less difficult to work through something when you understand its root cause

A holistic approach to the fascinating, multifaceted world of dreams.

Art Therapy, Dreams, and Healing: Beyond the Looking Glass synthesizes methods to work with one's dreams through art therapy and introduces the reader to brief creative methods, Gestalt and Jungian experiential methods, and research on lucid dreaming and dream re-entry. The author provides a unique, clear and concise synthesis of 19 available dreamwork methods to find the message of your dreams, with examples from her own 35 years of psychotherapy practice. Along with a classification of types and functions of dreams, chapters include information such as how to keep a dream journal, how to remember one's dreams, how to identify 25 different dream types and how to follow your own dreamwork process. This book provides a succinct blend of available dreamwork methods for readers to find the existential message of their dreams and grow from them.
