Preparing the next generation to inherit the family enterprise is the single most important determinant of a successful generational handoff. It depends significantly on both the senior generation and junior generation taking active roles in the preparation process. Specifically, what can each generation do to help develop the next generation? What does each generation want from the other throughout this journey? These and related questions have been discussed by families from around the world every year since 1997 at the Families in Business program at Harvard Business School. *Next Generation Success* offers a convenient summary of these rich conversations between senior and junior generation members regarding what each generation can do to help the next generation develop as effective managers, owners and family members. The perspectives of both generations are compared over a 10 year period. Included are Professor John Davis' candid letters to both generations offering wisdom on managing the challenges and enjoying the rewards of successfully transitioning the family enterprise to the next generation.

A master of family therapy, Salvador Minuchin, traces for the first time the minute operations of day-to-day practice. Dr. Minuchin has achieved renown for his theoretical breakthroughs and his success at treatment. Now he explains in close detail those precise and difficult maneuvers that constitute his art. The book thus codifies the method of one of the country's most successful practitioners.

Most children and grandchildren of Holocaust survivors felt the omnipresence of the Holocaust throughout their childhood and for many, the spectre of the Holocaust continues to loom large through the phenomenon of "intergenerational" or "transgenerational" trauma. In *From Generation to Generation: Healing Intergenerational Trauma Through Storytelling*, Emily Wanderer Cohen connects the dots between her behaviors and choices and her mother's Holocaust experiences. In a series of vivid, emotional—and sometimes gut-wrenching—stories, she illustrates how the Holocaust continues to have an impact on current and future generations. Plus, the prompts at the end of each chapter enable you to explore your own intergenerational trauma and begin your healing journey. Part memoir and part self-discovery, if you're a second-generation (2G) or third-generation (3G) Holocaust survivor—or you're experiencing intergenerational trauma of any kind—and you're ready to heal from that trauma, you need to read this book.

Edwin H. Friedman has woven 24 illustrative tales that offer fresh perspectives on familiar human foibles and reflect the author's humor, pathos, and understanding. Friedman takes on resistance and other "demons" to show that neither insight, nor encouragement, nor intimidation can in themselves motivate an unmotivated person to change. These tales playfully demonstrate that new ideas, new questions, and imagination, more than accepted wisdom, provide each of us with the keys to overcoming stubborn emotional barriers and facilitating real change both in ourselves and others. Thought-provoking discussion questions for each fable are included.
