HP T7100 Has "Paper Jam" but no paper present in system. 09-25-2018 02:23 PM. Recently replaced the belt and tensioner assembly on my Plotter Printer. Assembled, now the printer keeps returning a "paper jam" error. No paper is present in the system. I've followed the steps outlined in the maintenance manual to ensure there is no paper in the printer- but this issue keeps coming up.
