One of Italy's best-known writers takes a Grand Tour through her cities, history, and literature in search of the true character of this contradictory nation. There is Michelangelo, but also the mafia. Pavarotti, but also Berlusconi. The debonair Milanese, but also the infamous captain of the Costa Concordia cruise ship. This is Italy, admired and reviled, a country that has guarded her secrets and confounded outsiders. Now, when this "Italian paradox" is more evident than ever, cultural authority Corrado Augias poses the puzzling questions: how did it get this way? How can this peninsula be simultaneously the home of geniuses

and criminals, the cradle of beauty and the butt of jokes? An instant #1 bestseller in Italy, Augias's latest sets out to rediscover the story-different from the history-of this country. Beginning with how Italy is seen from the outside and from the inside, he weaves a geo-historical narrative, passing through principal cities and rereading the classics and the biographies of the people that have, for better or worse, made Italians who they are. From the gloomy atmosphere of Cagliostro's Palermo to the elegant court of Maria Luigia in Parma, from the ghetto of Venice to the heroic Neapolitan uprising against the Nazis, Augias sheds light on the Italian character, explaining it to outsiders and to Italians themselves. The result is a "novel of a nation," whose protagonists are both the figures we know from history and

literature and characters long hidden between the cracks of historical narrative and memory.

A brilliantly dark literary debut of death, destruction and interior decoration. "But for the floors, and the sofa, and the porn, and the dead and missing, the flat was restored to order." An old friend asks you to look after his two cats and his apartment. What could go wrong? Care of Wooden Floors is about how a tiny oversight can trip off a disastrous and farcical (fatal, even) chain of consequences. It's about a friendship between two men who don't know each other very well. It's about alienation and being alone in a foreign city. It's about the quest for perfection and the struggle against entropy. And it is, a little, about how to take care of wooden

floors. Oskar is a Mittel-European minimalist composer best known for a piece called "Variations on Tram Timetables." He is married to a Californian art dealer named Laura and he lives with two cats, named after Russian composers, in an Eastern European city. But this book isn't really about Oskar. Oskar is in Los Angeles, having his marriage to Laura dismantled by lawyers. He has entrusted an old university friend with the task of looking after his cats, and taking care of his perfect, beautiful apartment. Despite the fact that Oskar has left dozens of surreally detailed notes covering every aspect of looking after the flat, things do not go well. Dark, funny and compelling, this novel takes your breath away with its extraordinarily distinctive writing. The voice is unexpected, constantly, but consistently conveys a universal

An effortlessly artful blend of travel book, memoir, and affectionate portrait of a people Calabria is the toe of the boot that is Italy—a rugged peninsula where grapevines and fig and olive trees cling to the mountainsides during the scorching summers while the sea crashes against the cliffs on both coasts. Calabria is also a seedbed of Italian American culture; in North America, more people of Italian heritage trace their roots to Calabria than to almost any other region in Italy. Mark Rotella's *Stolen Figs* is a marvelous evocation

of Calabria and Calabrians, whose way of life is largely untouched by the commerce that has made Tuscany and Umbria into international tourist redoubts. A grandson of Calabrian immigrants, Rotella persuades his father to visit the region for the first time in thirty years; once there, he meets Giuseppe, a postcard photographer who becomes his guide to all things Calabrian. As they travel around the region, Giuseppe initiates Rotella—and the reader—into its secrets: how to make soppressata and 'nduja, where to find hidden chapels and grottoes, and, of course, how to steal a fig without actually committing a crime. Stolen Figs is a model travelogue—at once charming and wise, and full of the earthy and unpretentious sense of life that, now as ever, characterizes Calabria and its people.

In his previous books Alain Touraine analysed the great changes that have transformed our personal and collective lives; in this new book he shows that we need to transform our ways of thinking about these changes. The very idea of society is in crisis: globalization and the liberation of desires from taboos have led to the collapse of the old social order. In our societies today, good and evil can no longer be defined by institutions; self-awareness is more important than the awareness of rules and subjects have become their own creators. Taking as his starting point a critique of what he calls the Dominant Interpretive Discourse, which tried throughout the twentieth century to impose the idea of a society without actors that was subject to various kinds of

determinism (especially economic determinism), Touraine argues that the only principle that allows us to evaluate individual behaviour and social situations is the recognition of the political, social and cultural rights of all human beings, who are viewed as free and equal. The individual must be seen as a subject and treated as the cornerstone of a reconstructed sociology. Whereas some denounce individualism, the author celebrates a subjectivation that involves the defence of the rights of all against all modes of social integration. This general line of argument is made concrete through an analysis of the subordination of women, the exclusion of minorities and the difficulties young people face at school and at work. This major new book represents in many ways the culmination of twenty years of theoretical
