Imperfect Creatures: Vermin, Literature, and the Sciences of Life, 1600-1740. Lucinda Cole's Imperfect Creatures offers the first full-length study of the shifting, unstable, but foundational status of "vermin" as creatures and category in the early modern literary, scientific, and political imagination. In the space between theology and an emergent empiricism, Cole's argument engages a wide historical swath of canonical early modern literary texts-William Shakespeare's Macbeth, Christopher ...

Imperfect Creature In contrast to God, the creature, who is not the source of its own existence, is, by definition, imperfect. That does not necessarily mean morally imperfect, but certainly ontologically imperfect: the creature is not God, and therefore not goodness itself, and therefore capable of falling short of goodness itself, and therefore imperfect.

"By taking early modern vermin seriously, Imperfect Creatures reveals the crises and insecurities that these ubiquitous creatures could evoke in humans. Ranging widely across time and genre, this insightful and beautifully crafted study lifts animal studies to a new level of analysis and theoretical sophistication, while never losing sight of its human and animal actors."

Description. The Imperfect are large, reptilian creatures that only appear in Dragon's Sanctum, near the Lair of the Imperfect bonfire. While they have no eyes, noses or ears, they have enormous, human-like mouths and teeth. They drop Petrified Dragon Bones, Dragon Scales, and Titanite Slabs which, paired with their reptilian appearance and energy spitting ability, hints that they are some kind of twisted draconic descendant.
