Modern direct democracy has become an essential element of political life in many countries in Europe and worldwide. The initiative and referendum process offers extra channels for citizen participation and thus represents an important supplementary institution in modern democracies. This third volume of the series Direct Democracy in Modern Europe focuses on direct-democratic decisions on minority affairs. The main question is whether direct democracy tends towards a domination of the majority over a minority, producing new conflicts, or whether, how, and under what conditions it helps to solve problems in complex societies and leads to lasting solutions to political disputes. This volume includes articles by specialist researchers on - historical experiences of direct-democratic decisions on territorial conflicts; - theoretical considerations on direct democracy and minorities; - case studies on popular votes concerning minority issues; - several country case studies; - the role of the media in direct-democratic campaigns on minority affairs; - the potential of transnational direct democracy.

Modern direct democracy has recently become an important element of political life in many countries. These developments can be observed at the national, regional, and local level of political systems. Participation and democracy in local political affairs play a major role in stabilising and developing democratic systems. This volume presents, for the first time, a broad basis of information on the wide variety of local institutions and practice of direct democracy in 19 countries. Country specialists analyse - the role of direct democracy in the institutional context and culture of national political systems, - political processes of introduction and development of initiatives and referendums, - regulations of procedures of municipal direct democracy, - practice of local direct democracy, - the contribution of local direct democracy to democratic development in general.

Tagesordnung sind. Er arbeitet auf einem Biobauernhof, joggt mit einer Beamtin, lässt sich von einer Tantrikerin massieren, verliebt sich, flüchtet in die Einsamkeit des Waldes, überlebt einen Todeskampf und trifft auf willige Frauen in einem Schrank. Zu guter Letzt steht Randy, der "Humaniser", vor dem Thema: "Amor und das Abendmahl".

This book examines utopias in classical political economy and is based on the papers presented by leading scholars at the 22nd Heilbronn Symposium in the Economics and the Social Sciences. The book focuses on the tension between the State and utopia (the State as utopia vs. utopia instead of a state). The contributors also study the question of whether seafaring and landlocked states visualize the commonwealth differently and develop different utopias, and it is concluded they do not. The volume therefore follows the refutation of the Schumpeterian Hypothesis that more concentrated industries stimulate innovation. Though the hypothesis is refuted it still remains important, the chapters argue, because it charts out an entire research program, serves as a benchmark of definite public and private sector boundaries, and defines the grammar of discourse for constitutional economic policy in OECD states. These themes are explored in detail through contributions by economists, philosophers,

and social historians. The contributors examine utopias hitherto never or rarely reviewed in the English language, making this book of interest to students and scholars in economics, political science and the history of economic thought.

Mit der Einrichtung des europäischen Binnenmarktes und dem Inkrafttreten des Maastrichter Vertrages hat sich die gesellschaftliche, wirtschaftliche und politische Verflechtung innerhalb der Europäischen Union intensiviert. Die Vertiefung der Zusammenarbeit zwischen den EU-Staaten wird nicht nur die europäischen Institutionen verändern, sondern auch die Abläufe in den nationalen politischen Systemen beeinflussen. Für das Verständnis der politischen Vorgänge im integrierten Europa ist eine gründliche Kenntnis der nationalen politischen Systeme erforderlich. Solche Kenntnisse vermittelt dieser Band in einer systematischen, vergleichenden Übersicht über die politischen Strukturen und Prozesse der EU-Mitgliedsstaaten sowie über ausgewählte Inhalte der staatlichen Politik.

Image dieser Stadt, die oft in Verbindung mit dem Verfahren des Bürgerhaushaltes untersucht wird. Doch Rogerio R. Mororó präsentiert ein ganz anderes Bild von Porto Alegre. Er kommt in seiner Analyse zu den Ergebnissen, dass direkte Bürgerbeteiligung in Porto Alegre bislang zwar zu mehr Legitimation politischer Entscheidungsfindungen beigetragen hat, jedoch nicht zu Veränderungen bestehender Machtstrukturen und ebenso wenig zur spürbaren Minderung von Missständen wie krassen räumlichen und sozialen Disparitäten in der lokalen Gesellschaft. Diese Tatsache wird jedoch von einem demokratischen Mythos verklärt.

This book is the most comprehensive reference guide to more than 200 years of experience with the initiative and referendum process in Europe. With the European Union enlarging with ten new countries and the continent heading to its first Europe-wide referendum, the book offers background, facts, and analysis from more than 35 countries that will help the reader understand these important and emerging events. The volume also explores and describes criteria and requirements for a working I&R process at all political levels.

Neben der Beteiligung an Wahlen stehen den Bürgern in Deutschland zahlreiche zusätzliche Partizipationsformen zur Verfügung, um

Einfluss auf das politische System und seine Entscheidungen zu nehmen. Dazu zählen die Beteiligung an Demonstrationen, die Mitarbeit in Bürgerinitiativen, das Spenden von Geld an politische Parteien oder der Boykott von Produkten aus politischen Gründen. Dieser Band untersucht Häufigkeit, Struktur und Erklärungsfaktoren dieser politischen Aktivitäten. Die Nutzung von Trend- und Paneldaten ermöglicht eine umfassende Betrachtung des politischen Beteiligungsprozesses und bietet erstmals eine Analyse intraindividuelle Veränderungen politischer Aktivitäten und ihrer kausalen Erklärungsmuster in Deutschland.

Explores the impact of frequent referendums on the Swiss political system. Various institutions evolved to cope with the repeated challenging of government decisions in the arena of direct democracy. This study identifies phenomena which may occur in politics that use referenda less often.
