Welcome to the University of Louisville's Journal of Animal and Environmental Law (JAEL). JAEL was founded in 2009 to become the premier source of legal work in the Ohio River Valley and Appalachia regions for animal and environmental law. JAEL aspires to be an essential resource for academia and policy makers on all matters relating to animal and environmental law.

University of Louisville Brandeis School of law

As one of three legal journals housed in the Michigan State University College of Law, the Journal of Animal and Natural Resource Law possesses a unique history. ANRLR's roots are derived from a national animal rights organization that was gracious enough to fund our publication. In recent years, the Journal has expanded its subject matter to encompass the field of natural resource law.

Journal of Animal Ethics Description: The Journal of Animal Ethics is devoted to the exploration of progressive thought about animals. It is multidisciplinary in nature and international in scope.

Journal of Animal Ethics on JSTOR

Dozens of law schools in Europe, the United States, and elsewhere offered courses in animal law and animal rights; the Animal Legal Defense Fund had created an even greater number of law-student chapters in the United States; and at least three legal journals—Animal Law, Journal of Animal Law, and Journal of Animal Law and Ethics—had been established. Legal scholars were devising and evaluating theories by which nonhuman animals would possess basic legal rights, often for the same ...

Introduction to Symposium on Global Animal Law (Part I): Animals Matter in International Law and International Law Matters for Animals - Volume 111 - Anne Peters

This open access book contains 13 contributions on global animal law, preceded by an introduction which explains key concepts and methods. Global Animal Law refers to the sum of legal rules and principles (both state-made and non-state-made) governing the interaction between humans and other animals, on a domestic, local, regional, and international level. Global animal law is the response to the mismatch between almost exclusively national animal-related legislation on the one hand, and the global dimension of the animal issue on the other hand. The chapters lay some historical foundations in the *ius naturae et gentium*, examine various aspects of how national and international law traditionally deals with animals as commodity; and finally suggest new legal concepts and protective strategies. The book shows numerous entry points for animal issues in international law and at the same time shifts the focus and scope of inquiry.

Foreword by Ward Churchill; cover design by Sue Coe The first anthology of writings on the history, ethics, politics and tactics of the Animal Liberation Front, Terrorists or Freedom Fighters? features both academic and activist perspectives and offers powerful insights into this international organization and its position within the animal rights movement. Calling on sources as venerable as Thomas Aquinas and as current as the Patriot Act--and, in some cases, personal experience--the contributors explore the history of civil disobedience and sabotage, and examine the philosophical and

cultural meanings of words like "terrorism," "democracy" and "freedom," in a book that ultimately challenges the values and assumptions that pervade our culture. Contributors include Robin Webb, Rod Coronado, Ingrid Newkirk, Paul Watson, Karen Davis, Bruce Friedrich, pattrice jones and others.

"When either animalists or environmentalists get together and talk about "issues" that are important to them, there is almost no overlap in the topics. There is always the common point, that some humans or corporations are causing the harms they are concerned about, but that is not particularly helpful to solving problems. So the groups go about their good work without reaching out to others, as they seldom share priorities in a world of limited resources."--From the foreword by David S. Favre, Professor of Law & The Nancy Heathcote Professor of Property and Animal Law, Michigan State University College of Law This edited volume by Professor Randall S. Abate of Florida A&M University College of Law presents a collection of 17 chapters in an attempt to fill the gap--as illustrated above--between the complex legal issues that matter most to environmental law and animal law movements. Environmental law has a longer history and is more established than its animal law counterpart with intricate layers of international, federal, state, and local laws. Animal law currently faces many of the legal and strategic challenges that environmental law faced in seeking to establish a more secure foothold in U.S. and international law and, as such, stands to gain valuable insights from the lessons of the environmental law movement's experience in confronting those challenges. These chapters compare the very different trajectories of the regulatory history of both movements, examining the legal intersections that may exist across them. Prof. Abate draws on the talents of 22 experts in their fields from academia, non-profits, and the legal profession to examine the ways in which animal rights and welfare law can benefit from environmental law. The chapters address various contexts and perspectives from U.S. law, foreign domestic law, and international law on substantive issues including climate change, international trade and the environment, concentrated animal feeding operations, invasive species, lead pollution, and fisheries management, and procedural issues including standing and damages. The book concludes with two chapters that offer a vision for the future regarding how animal law can learn from environmental law and how the two movements can better coordinate their common objectives. Reviews: "This is a path-breaking collection of thoughtful essays on the relationship between traditional environmental law and the emerging law of animal rights and welfare. Indeed these closely reasoned accounts show how intertwined are the strands of law that comprise these seemingly disparate fields. In a human dominated world the book is a useful reminder that hubris can lead to catastrophe for all forms of life on earth."--Patrick Parenteau, Professor of Law, Senior Counsel Environmental and Natural Resources Law Clinic, Vermont Law School "Professor Abate's book is an extremely valuable contribution. It's an excellent compendium of environmental laws and treaties pertinent to animal welfare, as well as lessons that the more developed field of environmental law may present for the emerging field of animal law."--Dr. Wil Burns Co-Executive Director, Forum for Climate Engineering Assessment and Chair, Environmental Law Section of the International Law Association "This book contains a valuable, well-written, and incisive collection of essays by outstanding experts in the fields of environmental and animal law. It deserves a place on the bookshelves of all animal rights and environmental law attorneys and anyone else who believes that our natural surroundings, and the living creatures which inhabit it, deserve to be valued and protected."--Joel Mintz, Professor of Law, Nova Southeastern University Shepard Broad Law Center "Always up for a challenge, Professor Abate has gathered together an impressive group of Animal Law experts and asked them to climb a very steep mountai

In *Animal Law: Welfare, Interest, and Rights*, author David Favre uses problems, case studies, and doctrine as part of a thoughtful exploration of the history, law, and policy of animals rights. Including ample material on jurisprudence, Favre asks students to consider: What are the arguments for animal rights as a matter of philosophy and law? Student-friendly text introduces cases that address a variety of topics. A rich selection of materials shed light on the history of legal and policy protections for animals dating back to 1867. The timely Second Edition updates *Animal Law: Welfare, Interest, and Rights*. A New Jersey case and legislature impacts animals in agriculture. Favre considers recent cases on dog fighting, as well as a custody dispute case involving a dog. The procedural standing chapter offers timely new cases and a new, improved organization. Tracing the development of animal rights law, this innovative casebook features: David Favre, who has extensive experience teaching and speaking around the world on animal rights issues a consistent emphasis on issues that the public faces with regard to animals , including ownership, sale, veterinary malpractice, recovery for damages for harm to animals, and more accessible problems and engaging case studies on animal rights topics jurisprudence and legal reasoning: what are the arguments for animal rights as a matter of philosophy and law? case decisions supported by informative text a rich variety of material that traces the 100-year history of animal rights an in-depth treatment of the law and policy protecting commercial and agricultural animals The timely Second Edition includes: a key New Jersey decision and legislation concerning animals in agricultural recent cases on dog fighting a look at dog custody in a divorce case new cases on procedural standing a new case on an individual hoarding animals

This exploration of the newly emerging, diverse, and controversial area of animal law presents a basic survey of the laws designed to protect animals, analyzing and critiquing them, and proposing a future where the legal regime properly recognizes and protects the inherent worth of all animals.

Sonia S. Waisman is an Adjunct Professor of Law, California Western School of Law, Of Counsel, Morrison & Foerster, LLP.

While much has been written on environmental politics on the one hand, and animal ethics and welfare on the other, animal politics is underexamined. There are key political implications in the increase of animal protection laws, the rights of nature, and political parties dedicated to animals.

Just as China is called the world factory for manufactured goods, it is also a world factory for manufactured animal cruelty in a new phenomenon of globalized animal cruelty. Animals in China examines animal protection in China in its legal, social and cultural contexts.
