Top 100 Impact Factor Journals of Science

A journal can adopt editorial policies to increase its impact factor. For example, journals may publish a larger percentage of review articles which generally are cited more than research reports.. Journals may also attempt to limit the number of "citable items"—i.e., the denominator of the impact factor equation—either by declining to publish articles that are unlikely to be cited (such ...

Journals Impact Factor

Journal rankings typically use citation data to assess the quality of a given journal. The most well-known journal ranking system is the Journal Impact Factor (JIF), which is produced from citation counts collected from the Web of Science database. Other systems have been developed more recently, including Eigenfactor, Scimago Journal Ranking (SJR), Source Normalized Impact per Paper (SNIP), and SCOPUS CiteScore.
