chef making a meal. If the elements of graphic design (line, color, texture, shape) are the ingredients laid out in front of her and the principles of design (movement, rhythm, proportion, etc) are the recipe she uses to make the meal, then think of design layout and composition as the final plating.

~~The 5 rules of design composition and layout — 99designs~~  
Design principles are aimed at helping designers find ways to enhance usability, influence perception, increase appeal, teach users, and make sound design decisions during projects. Although this is true, I would argue that UI design principles have begun to take on an even broader role.
