These are a few of the words that come to mind when I think about how we use gardens to teach and grow love in kids. I've written before about the importance of allowing children time outside to develop empathy for and a connection to nature. Watching and caring for a delicate plant as it grows from seed to harvest instills in kids a sense of empathy and compassion, of the interconnectedness of nature and their responsibility (as a part of it) to care of it.

Gardens can be a great place to cultivate a meaningful and fun learning experience for children. It's a natural match. Gardening can offer children an opportunity to learn the life cycle process, by which plants are grown, as well as responsibility, caretaking, independence, and environmental awareness. Introducing children to gardening is a great way to increase their awareness of where food comes from and the

Kids Gardening: Tips, Ideas and Projects | Planet Natural

"Let's Grow a Garden" is a wonderful book, and increasingly hard to find. (I have given three copies as presents to friends and associates involved in farming or gardening activities and expect to keep up the custom.) The pictures are appealing, the theme is great--and the diversity of the little faces is, for me, the book's greatest distinction.
