Nobody knew Bernie like I did, and nobody knows about me... Sheryl Weinstein met Bernie Madoff when she was just shy of forty, and went on to have a twenty-year secret, intimate relationship with the man now known as an evil mastermind, a villain of the greatest proportions. It was 1988 and Sheryl was facing a huge dilemma. Bernie Madoff was paying her a great deal of attention. She was in the midst of a rocky marriage and feeling vulnerable, when the powerful Wall Street mogul began making overtures. As a successful CPA and head of a major charitable organization, she had a lot to lose. She directed him to take things slowly. Over the next five years, there were business meetings over lunch, followed by intimate dinners in hotel rooms and finally, private moments that for a time seemed intensely satisfying to them both. "I'm not to be trusted," he once told her casually. She ignored it, having no idea how prophetic those words would be. After all, her relationship with Bernie was passionate and profound. She felt desirable. She was the one nobody knew about, with the window into the real man. So careful about investing her money, when the SEC cleared him in 1992 she decided to get in all the way—with her heart, her soul—and her financial future. Sheryl was in the wrong place at the wrong time. She couldn't possibly have imagined the devastation that would befall her. Learning the truth was shattering on so many levels. Many books are being written about the scale of Madoff's fraud, but until now, nothing has shown the man through private eyes. Sheryl Weinstein's riveting story reveals a Madoff who will shock and surprise you. From the boardroom to the bedroom, in each other, the two found something that had been lacking in their own lives. It's a story with tragic overtones—a drama that only now could find a devastating conclusion.

The inside story of Bernie Madoff and his \$65 billion Ponzi scheme, with surprising and shocking new details from Madoff himself. Who is Bernie Madoff, and how did he pull off the biggest Ponzi scheme in history? These questions have fascinated people ever since the news broke about the respected New York financier who swindled his friends, relatives, and other investors out of \$65 billion through a fraud that lasted for decades. Many have speculated about what might have happened or what must have happened, but no reporter has been able to get the full story -- until now. In The Wizard of Lies, Diana B. Henriques of The New York Times -- who has led the paper's coverage of the Madoff scandal since the day the story broke -- has written the definitive book on the man and his scheme, drawing on unprecedented access and more than one hundred interviews with people at all levels and on all sides of the crime, including Madoff's first interviews for publication since his arrest. Henriques also provides vivid details from the various lawsuits, government investigations, and court filings that will explode the myths that have come to surround the story. A true-life financial thriller, The Wizard of Lies contrasts Madoff's remarkable rise on Wall Street, where he became one of the country's most trusted and respected traders, with dramatic scenes from his accelerating slide toward self-destruction. It is also the most complete account of the heartbreaking personal disasters and landmark legal battles triggered by Madoff's downfall -- the suicides, business failures, fractured families, shuttered charities -- and the clear lessons this timeless scandal offers to Washington, Wall Street, and Main Street.

The untold story of the Madoff scandal, by one of the first journalists to question his investment practices Despite all the headlines about Bernard Madoff, he is still shrouded in mystery. How did he fool so many smart investors for so long? Who among his family and employees knew the truth? The person best qualified to answer these questions is Erin Arvedlund. In early 2001, she was suspicious of the amazing returns of Madoff's hedge fund. Her subsequent article in Barron's could have prevented a lot of misery, had the SEC followed up. Arvedlund presents a sweeping narrative of Madoff's career-from his youth in Queens, New York, to his early days working for his father-in-law, and finally to infamy as the world's most notorious swindler. Readers will be fascinated by Arvedlund's portrayal of Madoff, his empire, and all those who never considered that he might be too good to be true.

In December 2008, my worst nightmare came true . . . How do you pick yourself up after the one thing you most feared happens to you? Alexandra Penney's revealing, spirited, and ultimately redemptive true story shows us how. Throughout her life, Alexandra Penney's worst fear was of becoming a bag lady. Even as she worked several jobs while raising a son as a single mother, wrote a bestselling advice book, and became editor in chief of Self magazine, she was haunted by the image of herself alone, bankrupt, and living on the street. She even went to therapy in an attempt to alleviate the worry that all she had worked for could crumble. And then, one day, that's exactly what happened. Penney had taken a friend's advice and invested nearly everything she had ever earned—all of her savings—with Bernie Madoff. One day she was successful and wealthy; the next she had almost nothing. Suddenly, at an age when many Americans retire, Penney saw her worst nightmares coming true. Based on her popular blog posts on The Daily Beast, this memoir chronicles Penney's struggle to cope with the devastating financial and emotional fallout of being cheated out of her life savings and illuminates her journey back to sanity, solvency, and security. "I will work harder than I ever have before—which was pretty hard indeed—and see what happens. I have the feeling something good will come of it: tough, challenging work and laserlike focus have always paid off for me. . . . Was it better to have it and then lose it? Yes, yes, yes! Even though I lived with horrible bag lady fears of losing it all, now that those financial fears have materialized, I'm in pretty good shape and looking to what's next. Experiences – good and bad, exciting and boring, tragic and absurd – make up a life. Not to have lived to the fullest is the saddest, most irresponsible life I can think of." — from The Bag Lady Papers
