MODEL BOAT PROPELLER

The main focus and specialty of BT Marine is in the design, engineering, manufacture and supply of complete propulsion packages up to 300mm shaft diameter and 4.0 metre diameter propellers, along with our standard range of small inboard propellers up to 30" diameter which are held in stock and replacements for most of Europe's major Powerboats are available made to order.

Propeller Guidance. Whilst Beta Marine has had many years of experience learning which propeller normally goes with which engine, we can only give you general guidance, propellers are a complex subject with many variables that can affect a vessels performance and if optimum theoretical hull speed is required a propeller specialist should be consulted.
