"Max Goes to the Playground" by Adria F. Klein was really cute. It's about Max and his friend Jose spending the day at the playground. My daughter liked this book because it showed a playground, and she loves going to the park. And, the book had a lot of colors which she could easily identify with.

Jabar goes to the playground to play on the swings. The length of each swing is 1.75 m. What is the distance traveled on one swing, from maximum height to the next maximum height, if the central angle of the swing is 1.4 rad? Jabar decides to swing higher. If the distance travelled on one swing is 3.5 m, what would be the central angle in degrees

About the Playground. The Go Playground is a web service that runs on golang.org's servers. The service receives a Go program, vets, compiles, links, and runs the program inside a sandbox, then returns the output. If the program contains tests or examples and no main function, the service runs the tests. Benchmarks will likely not be supported since the program runs in a sandboxed environment ...
