## **mercury 115 outboard for sale | eBay**

I think a Mercury 115-HP 2+2 motor probably has about three transistors in the whole motor. When that motor was designed, those transistors probably cost about \$10. A Mercury VERADO has several million transistors, and they probably cost about \$10, too. In designing a motor for 2010, you can't really ignore the benefits of cheap transistors.

A leading name in marine engines, Mercury is recognized for producing top-quality outboard motors as well as the MerCruiser line of inboard engines. Founded in 1939 by the talented engineer-businessman Carl Kiekhaefer, the Mercury brand of boating engines are found as factory equipment with many watercraft manufacturers.
