~~Print Workshop Hand Printing Techniques And Truly Original...~~

Relief prints are characterised by bold dark-light contrasts. The primary relief techniques are woodcut, wood engraving, and linocut. For relief printing, a press is not essential as the paper can be placed onto the block and the image transferred by rubbing it with something as simple as a metal spoon.

9. Sublimation transfer printing. This method involves a sublimation dye which is transferred to the fabric with heat. You need inkjet or colour laser printer, sublimation ink and a heat press machine for this printing technique. This method is definitely costlier than the thermal transfer method as
