6.3.1.3 Packet Tracer - Layer 2 VLAN Security - YouTube

In an interview I have been asked "What is Layer 2 and Layer 3 VLAN ". I answered them, Layer 2 VLAN is a single broadcast domain. It works on layer 2 (Data Link Layer). They can communicate only within it. And L3 VLAN is an Interface, that works on Network Layer. In order to do inter VLAN routing/ communication we need L3 interface (SVI).

What is Layer 2 and Layer 3 VLAN - Cisco Community

What I was trying to achieve is create L2 VLAN on the switch c3560, and it is not appearing when you type sh run. Please see the attached file (config and PT file). I have configured two switch 1. 2960 and 3560. Run sh run and sh vtp status, then you may understand. On switch 2960 L2 VLAN are displayed and on 3560 L2 VLAN not accepting.

Cisco Packet Tracer - Cisco Community

CCNA Security v2.0 Labs Activities Instructions Answers - PT CCNA Security 2.0 helps students develop the skills needed for entry-level network security career opportunities and prepare for the CCNA Security certification. It provides a theoretically rich, hands-on introduction to network security, in a logical sequence driven by technologies.
