Reading the Room: Group Dynamics for Coaches and Leaders

Michael Margolis points out that, often, non-verbal cues can tell us much more about the interpersonal dynamics in a room. ¶There's sometimes a pecking order in a group of who's more dominant and who's more subordinate.¶ Margolis notes. ¶You can see it pretty clearly if you know how to look.

Reading the Room - deoat

reading the room. Group Dynamics for Coaches and Leaders. The Reading the Room aims to enrich psychologists, consultants, coaches, therapists, business leaders, and other professionals' understanding of communication within their teams through the use of Kantor Structural Dynamics theory. Reading the Room will offer a background in Kantor Structural Dynamics with in-depth coverage of communication differences in low stakes versus high stakes situations.

Kantor Institute

Kathryn is the Co-Principle Investigator with David Kantor, Ph.D. on the Reading the Room project. The study is testing David Kantor's groundbreaking model of interpersonal communication and group dynamics (Structural Dynamics) in executive leadership teams. The pilot will be completed by summer of 2015 and results published at that time. Preliminary results reveal the efficacy of the model that is well grounded in 50 years of prior research within family systems.

Not to be missed" ¶William Isaacs, author, Dialogue and the Art of Thinking Together; and senior lecturer, MIT Sloan School of Management

Incorporating the latest research throughout, Daniel Levis' Fifth Edition of Group Dynamics for Teams explains the basic psychological concepts of group dynamics, focusing on their application with teams in the workplace. Grounded in psychology research and a practical focus on organizational behavior issues, this engaging book helps readers understand and more effectively participate in teams.

Strong teams can be one of the greatest strengths of an organization; just as poor teams can spell disaster. Group Dynamics and Team Interventions brings research and practice together to offer proven application and intervention techniques to help optimize team functioning in the workplace. A benefit to academics and practitioners alike, this book provides readers with a better understanding of the dynamics that inform team behavior, along with assessment tools and practical techniques to create and maintain high-performing teams.

"Group Dynamics in Recreation and Leisure: Creating Conscious Groups Through an Experiential Approach builds skills not only in working in group settings but also in creating and facilitating conscious groups - groups that recognize the personal growth of their members as a main objective." "The book introduces group dynamics theory and current research as it applies to recreation and leisure settings and moves beyond the theory to show students that their understanding of group dynamics can be a meaningful and realistic tool. They'll learn to apply the theory to the practical factors and issues involved in leading and working with conscious groups, including goal setting, decision making and problem solving, ethics and morals, positive communication, and the effects of conflict, power, gender, and environment on group functioning."--BOOK JACKET.

How can boards and members of boards reach their full potential? The Tavistock Institute of Human Relations (TIHR) has been at the forefront of thinking about organizations since its inception in 1947. Today, as then, the corporate world is undergoing increasing pressure to demonstrate a sustainable, generative and meaningful impact on society and employees whilst delivering improved services and products. These tensions and others are explored in this important new book, Dynamics at Boardroom Level: A Tavistock Primer for Leaders, Coaches and Consultants. In this book, the reader gets a useful framework of theory and practice that broadens vision and deepens thinking about what is happening in boardrooms. The book opens the door to the reader to a new world of board dynamics, edited by those who really understand the deeper workings of the complex human system and its work at board level. This edited volume brings together the insights and contemporary case studies from participants on the Tavistock Institute Dynamics @ Board Level programme that draws on the thinking of Tavistock scholars and practitioners and their work on the dynamics of task, role, authority and power. Edited by programme co-directors Dr Mannie Sher and Dr Leslie Brissett and their fellow Tavistock Associate Tazi Lorraine Smith, and with contributions from senior leadership practitioners and board evaluators from the government, international consultancy firms, FTSE 100 and global UN institutions, this book speaks directly to issues of our time. It represents essential reading for leaders of organizations and businesses, as well as leadership coaches and mental health professionals.

During the past decade, leaders have increasingly relied on self-managing work groups, multifunctional teams, and cross-national executive groups to create the organization of the future. Yet groups are not a panacea for organizational problems; conflicts between individuals or factions within a group often create seemingly contradictory situations?paradoxes?that can prevent the group from reaching its goals. In this groundbreaking classic, Kenwyn Smith and David Berg offer a revolutionary approach to understanding groups and overcoming the problems that often paralyze group members, the group as a whole, and relations among groups. They explore the hidden dynamics that can prevent a group from functioning effectively. And they show how an apparently paradoxical suggestion?for example, inviting a success oriented group to risk failure, or affirming the benefits of going nowhere to a group focused on moving ahead?can break action barriers, overcome conflicts, and improve group performance. Smith and Berg offer a different way of thinking about groups that will open new avenues of inquiry for professors and students of group behavior; and they propose many innovative ideas that will prove valuable to consultants, trainers, therapists, and others who work with groups on a regular basis.

Explains how friendship and romance hold the keys to achieving the maximum benefit from one's relationships, discussing three myths--the Personal Myth, Gender Myth, and Sexual Fantasy Myth--that can, if unexplored, control our lives. Reprint.

"Full of revealing, instantly applicable ideas for leveraging your strengths and overcoming your weaknesses." ¶Adam Grant, author of Think Again and Originals, and host of the TED podcast WorkLife For many of us, listening is simply something we do on autopilot. We hear just enough of what others say to get our work done, maintain friendships, and be polite with our neighbors. But we miss crucial opportunities to go deeper?to give and receive honest feedback, to make connections that will endure for the long haul, and to discover who people truly are at their core. Fortunately, listening can be improved; and Ximena Venegoechea can show you how. In Listen Like You Mean It, she offers an essential listening guide for our times, revealing tried-and-true strategies honed in her own research sessions and drawn from interviews with marriage counselors, podcast hosts, life coaches, journalists, filmmakers, and other listening experts. Through Venegoechea's set of scripts, key questions, exercises, and illustrations, you'll learn to: ¶ Quickly build rapport with strangers ¶ Ask the right questions to deepen a conversation ¶ Pause at the right time to encourage vulnerability ¶ Navigate a conversation that's gone off the rails Now more than ever, we need to feel heard, connected, and understood in a world that keeps turning up the volume. Warm, funny, and immensely practical, this book shows you how.
