Research Methods in Criminal Justice and Criminology, First Edition connects key concepts to real field research and practices using contemporary examples and recurring case studies that demonstrate how concepts relate to students' lives.

Research Methods in Criminal Justice and Criminology ...
As a research method, a survey collects data from subjects who respond to a series of questions about behaviors and opinions, often in the form of a questionnaire. The survey is one of the most widely used scientific research methods. The standard survey format allows individuals a level of anonymity in which they can express personal ideas. Questionnaires are a common research method; the U.S. Census is a well-known example. (Photo courtesy of Kathryn Decker/ flickr)

Digital Learning & Online Textbooks – Cengage

"This is a great text. It is comprehensive and easy to understand. The illustrations will enable students to learn and remember the information. This is the first research methods text I have read that is actually fun to read." —Tina L. Freiburger, University of Wisconsin-Milwaukee
Research Methods in Criminal Justice and Criminology connects key concepts to real field research and practices using contemporary examples and recurring case studies that demonstrate how concepts relate to students' lives. Authors Callie M. Rennison and Timothy C. Hart introduce practical research strategies used in criminal justice to show students how a research question can become a policy that changes or influences criminal justice practices. The book's student-driven approach addresses both the why and the how as it covers the research process and focuses on the practical application of data collection and analysis. By demonstrating the variety of ways research can be used and reinforcing the need to discern quality research, the book prepares students to become critical consumers and ethical producers of research. Free Poster: How to conduct a literature review Give your students the SAGE edge! Now even more accessible and student-friendly, the Sixth Edition of the market-leading RESEARCH METHODS FOR CRIMINAL JUSTICE AND CRIMINOLOGY combines the scholarship, accuracy, and conversational tone of Earl Babbie's bestselling THE PRACTICE OF SOCIAL RESEARCH with Mike Maxfield's expertise in criminology and criminal justice. Providing the most comprehensive, authoritative introduction to criminal justice research available today, this edition continues its focus on getting students to DO research and is enhanced by new examples, research, applications, and built-in study tools. Throughout the book, Maxfield illustrates the rewards and challenges of research using examples of his own students' research as well as examples from recent published studies. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Research Methods in Crime and Justice, 2nd Edition, is an innovative text/online hybrid for undergraduate Criminal Justice Research Methods courses. This material uniquely addresses the fundamental teaching issue for this course: how to show students that success as criminal justice practitioners is linked to their acquisition of research skills. Brian Withrow, a widely published academic researcher and former Texas State Trooper, developed this approach for his own undergraduate Research Methods class. He persuasively demonstrates that research skills aren't just essential to university academic researchers but to successful criminal justice practitioners as well. More than 80 short, sharply focused examples throughout the text rely on research that is conducted by, on behalf of, or relevant to criminal justice practitioners to engage students' interest like no other text of its kind. Extensive web materials all written by the author provide an array of instructor support material, including a Researcher's Notebook that provides students (and their instructors) with a series of structured exercises leading to the development of a valid research project. Withrow systematically walks students through defining a question, conducting a literature review, and designing a research method that provides the data necessary to answer the research question—all online, with minimal instructor supervision. The second edition features expanded coverage of measurement, qualitative research methods, and evaluation research methods, as well as additional downloadable journal articles to ensure students begin to think critically about research and can read scholarly literature.

Based on Earl Babbie's best-selling text, THE PRACTICE OF SOCIAL RESEARCH, this text combines the key strengths of Babbie's text (accessibility; a conversational, "friendly" writing style; and great examples) with Michael G. Maxfield's expertise in criminology and criminal justice for a text that addresses the specific methods used in criminal justice research. The new edition of this market-leader includes changes in its coverage of ethics, causation, validity, and research design, as well as updated coverage and statistics, and expanded examples, especially in the discussion of field research. A running case study on the dropping crime rate in New York City's study to which co-author Maxfield has close links further demonstrates the important role of research methods in our evolving understanding of crime and society.

This fresh and innovative hybrid text/online material for undergraduate CJ RESEARCH METHODS uniquely addresses the fundamental teaching issue for this course: how to communicate and successfully teach students that their future success as criminal justice practitioners is linked to their acquisition of research skills. The author Brian Withrow, a former Texas State Trooper, widely published academic researcher, and teacher of the undergraduate methods course, consistently demonstrates how research skills aren't just essential to university academic researchers; they are essential to student success as criminal justice practitioners, and to all who want to succeed in an information economy. More than 80 short, sharply focused examples throughout the text rely on actual research that is conducted by, on behalf of, or relevant to criminal justice practitioners. The book engages students' interests like no other. The online materials provide a wide array of instructor support material, all written by the author, and also offer a unique feature, The Researcher's Notebook, which provides students (and their instructors) a series of structured exercises leading to the development and completion of a research question, conducting a literature review, and designing a research method that provides the data necessary to answer the research question - all with a minimal amount of instructor supervision. Cover images are courtesy of Lauren Withrow

The study of research methodologies can be daunting to many students due to complex terminology, mathematical formulas, and lack of practical examples. Now in its second edition, Criminal Justice Research Methods: Theory and Practice offers a straightforward, easy-to-understand text that clarifies this complex subject matter, keeping perplexing research language and associated complexities to a minimum and ensuring that students get a practical grasp of this essential topic. The authors discuss scientific inquiry, establishing a framework for thinking about and understanding the nature of research. They examine various types of research methods in the broad categories of quantitative, qualitative, and evaluation designs and provide coverage of analytical and experimental research designs. The book also examines survey methods, survey instruments, and questionnaires, including wording, organization, and pretesting. It describes the fundamental characteristics of the qualitative approach, setting the stage for an in-depth discussion of the participant observation and case study methods of research. Other topics include ethical standards of conduct, topic selection, literature review, and guidelines for writing a research report or grand proposal. The second edition features updated examples, reworked exercises, additional discussion points, and new research-in-action sections. Defining a clear approach to the study of research, the book enables student experiencing their initial exposure to this subject to be fundamentally prepared to be proficient researchers in criminal justice and criminology.

Research should be enjoyable, whether it is a college student completing a project for a degree or a professor meeting requirements or expectations associated with his or her position. Learning the basics for conducting research is the first step. This text is a reader-friendly primer that has as its strength the facility to positively and gently ease the reader into the task of conducting research.

Research Methods in Criminal Justice and Criminology is a core text for criminology and criminal justice research methods courses. It strives to offer a general foundation of knowledge that transcends particular topics or subject areas, allowing students to apply research methods and concepts to a multitude of scenarios. Even though the textbook has been written primarily for criminal justice and criminology majors, there is an underlying recognition that research methods and findings are common among all of the social sciences. This text has been designed to be user-friendly, even when dealing with some fairly complex statistical and theoretical concepts. The most critical points are clearly stated and illustrated with examples chosen to be interesting in their own right.

Featuring real-world examples throughout and comprehensive coverage of quantitative and qualitative methods, the market-leading RESEARCH METHODS FOR CRIMINAL JUSTICE AND CRIMINOLOGY combines the scholarship, accuracy, and conversational tone of Earl Babbie's best-selling THE PRACTICE OF SOCIAL RESEARCH with Mike Maxfield's expertise in criminology and criminal justice. Providing the most comprehensive, authoritative introduction to criminal justice research available today -- and enhanced by new examples, research, applications, and built-in study tools -- the eighth edition continues its focus on getting students to DO research. Updates include the latest techniques and technologies for sampling and surveys as well as current methods in content analysis and secondary data analysis. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Adapted from the best-selling Research Methods in Criminal Justice and Criminology, ESSENTIALS OF RESEARCH METHODS FOR CRIMINAL JUSTICE, 3/e teaches general research methods using standard and contemporary examples of criminal justice and criminology research. Featuring both qualitative and quantitative studies, this edition offers an emphasis on ethics, the latest research studies, new information on prison research, Internet resources and visual criminology. This essentials version omits coverage of data management and analysis, and places its emphasis on fundamental research skills and the literature of the field.
