Rules for the World: International Organizations in Global ...

Rules for the World provides an innovative perspective on the behavior of international organizations and their effects on global politics. Arguing against the conventional wisdom that these bodies are little more than instruments of states, Michael Barnett and Martha Finnemore begin with the fundamental insight that international organizations are bureaucracies that have authority to make rules and so exercise power.

Rules for the World International Organisations in Global ...

In their book Rules for the World, Barnett and Finnemore provide a comprehensive understanding of how and why international organizations operate the way they do. I find that through their constructivist approach to understanding the behavior of international organizations and bureaucracy, the authors fill a gap in previous international relations literature.

The International rule, also known as the Metre rule, was created for the measuring and rating of yachts to allow different designs of yacht to race together under a handicap system. Prior to the ratification of the International rule in 1907, countries raced yachts under their own national rules and international competition was always subject to various forms of subjective handicapping. An international 8-metre boat.
