When a wolf leaves the pack, he lives only as long as he can kill by himself quicker and surer than any pack he runs up against. Meet a man beyond either forgiveness or vengeance. Meet the Man they Call The Lone Wolf. Better meet him now. The way he lives, he can't live much longer. Burt Wulff was the target, and the way to Wulff was through an old friend named Tamara. Calabrese's men came for her in broad daylight, abducted her from her home and shot her full of drugs so that she didn't know a thing until she woke up in Miami. Miami - famous resort town, place in the sun and all that - but not now, not for Tamara and not for Wulff. The trouble was that Wulff was dead set against heroin, and went around breaking up the neat little trade routes that drug runners had set up around the globe. Now Calabrese decided he'd had enough of Wulff. Now he had Tamara, the bait by which to lure Wulff to Miami. In the shadow of those fine hotels and fancy shops, there was something going on along surfside. And that something was called murder.

Destination marketing is more challenging than other goods and services. The basis of competitive advantage shifts from tourism resources only (destination marketing) to a location-based or city-wide integrated management (place marketing). In this book, tourism scholars Metin Kozak and Seyhmus Baloglu discuss and synthesize theories, models, techniques, and principles for strategic marketing and management of tourist destinations, and demonstrate ways in which to further develop the concept of destination competitiveness for application within these destinations. The authors highlight the need for managing brand equity, tourist experience, and information systems, as well as involving internal and external stakeholders in strategic planning and implementation. This book offers practical information directly related to the tourism industry, using the examples of real-world cases to bridge marketing theory with practice. With its international focus and applications for developing a competitive advantage in today's global marketplace, this research will be indispensable to students and scholars of tourism, hospitality, and leisure and recreation programs, as well as practitioners within these industries.

When The Body as Language ("Body-art" and Performance) appeared in 1974, it was immediately a huge publishing hit, reviewed by some of the most influential art historians and writers (Giulio C. Argan, Edoardo Sanguineti, Max Kozloff, Lucy Lippard, François Pluchart, Peter Gorsen, Evelyn Weiss and many others). A direct testimony of the birth and development of one of the most controversial art trends, Lea Vergine's book avails of a series of texts by the artists themselves, whom the author had asked to contribute with a statement about the illustrations of their work. Featuring a thorough documentation of original photographs and film photographs, videotapes, happenings, actions and performances, the book analyses the evolution of this phenomenon through the works of sixty artists, including Gina Pane, Gilbert & George, Urs Lüthi and Katharina Sieverding, Rebecca Horn, Trisha Brown, Günter Brus and many others who have worked with and on the body. In an absolutely unusual publishing event, nearly thirty years after the first edition, the text--by now a classic--is republished with all the original photographic material. The volume is enhanced and brought up-to-date by an afterword by Lea Vergine, who observes the changes of Body Art throughout the nineties: Orlan, Stelarc, Ron Athey, Franko B., Yasumasa Morimura, Jana Sterbak, Matthew Barney are "virtuosos of disorder and hungry for afflictions of any and every kind, mystics--like persons who display the subjection of their bodies to cruel and invasive devices, or who revel in virtual fantasies of such self-inflicted pains--destroy themselves in order newly to find themselves. . . . They finally pay a visit to the world of the saints and victims, exploring and prolonging its seductions." "I want to make art about the commonplace, art that illumines social life. I want to enlist art to question the mythical explanations of everyday life that take shape as an optimistic rationalism and to explore the relationships between individual consciousness, family life, and the culture of monopoly capitalism." Since the late 1960s, American artist Martha Rosler has produced seminal works in the fields of photography, performance, video, installation, critical writing, and theory. Committed to an art that engages a public beyond the confines of the art world, Rosler investigates how socioeconomic realities and political ideologies dominate ordinary life. Her astute critical analyses are often cloaked in deadpan wit. This book, which accompanies the first retrospective exhibition of Rosler's work, contains seven color photo essays by Rosler; an excerpt from the curatorial project "If You Lived Here"; essays by Alexander Alberro, Catherine de Zegher, Sylvia Eiblmayr, Jodi Hauptman, and Annette Michelson; a conversation between Rosler and Benjamin Buchloh; and a biography/bibliography along with a complete list of art works. "[A] tart, funny, lurid little bomb of a book. It's all p.c., of course, but not at all predictable, and a lot of righteous information gets dispersed in record time." -- BUST Magazine We were Guerrillas before we were Gorillas. From the beginning, the press wanted publicity photos. We needed a disguise. No one remembers, for sure, how we got our fur, but one story is that at an early meeting, an original Guer, a bad speller, wrote 'Gorilla' instead of 'Guerilla.' It was an enlightening mistake. It gave us our mask-ularity. Ever wonder about the abundance of naked male statues in the Classical section of your favorite museum? Did you know medieval convents were hotbeds of female artistic expression? And how did those "bad boy" artists of the twentieth century make it even harder for a girl to get a break? Thanks to the Guerrilla Girls, those masked feminists whose mission it is to break the white male stronghold over the art world, art history--as we know it--is history. Taking you back through the ages, the Guerrilla Girls demonstrate how males (particularly white males) have dominated the art scene, and discouraged, belittled, or obscured women's involvement. Their skeptical and hilarious interpretations of "popular" theory are augmented by the newest research and the expertise of prominent feminist art historians. "Believe-it-or-not" quotations from some of the "experts" are sprinkled throughout, as are the Guerrilla Girls' signature masterpieces: reproductions of famous art works, slightly "altered" for historic accuracy and vindication. This colorful reinterpretation of classic and modern art, as outrageous as it is visually arresting, is a much-needed corrective to traditional art history, and an unabashed celebration of female artists.
