There is increased emphasis internationally on ethically sound research, and on good training for research supervisors. Researching with Integrity aims to identify what and how research can be undertaken ethically and with 'virtue' from initial conception of ideas through to dissemination. It outlines the context in which academics engage in research, considering the impact of discipline and institutional culture, the influence of government audit of research 'quality', the role of government and quangos, professional organisations and business sponsors, and examines the effects of the increasing power and influence of funding bodies, university ethics committees and codes of practice. Based on the notion of 'virtue'
