Gibson returns with this dazzling love story filled with sizzle, sass, and just a bit of southern charm . . . "Hello, Ms. Vivian . . . it's been a long time." And with those words, Vivian Leigh Rochet nearly melted. It's been years since she last saw Harrison Whitley-Shuler. She was a teenager scrubbing houses for a living. He was the gorgeous son of rich parents, not fit for the likes of her. Vivian had vowed to get out of Charleston, become a big Hollywood star, and stick it to the snooty girls who made her cry. She got what she wanted—and more—but why does her glamorous life seem so trivial? Harrison got out too . . . making it all the way to Wall Street, until a heart attack forced him to trade in his cufflinks for a good set of hand tools. Making furniture soothes his soul, but escaping the Whitley-Shuler heritage is nearly impossible. And now he's come face-to-face with the one who got away. He's not looking for love. He's not even looking for

sex . . . so why is resisting her the hardest thing he's ever done?

Russian Society and the Orthodox Church examines the Russian Orthodox Church's social and political role and its relationship to civil society in post-Communist Russia. It shows how Orthodox prelates, clergy and laity have shaped Russians' attitudes towards religious and ideological pluralism, which in turn have influenced the ways in which Russians understand civil society, including those of its features - pluralism and freedom of conscience - that are essential for a functioning democracy. It shows how the official church, including the Moscow Patriarchate, has impeded the development of civil society, while on the other hand the non-official church, including nonconformist clergy and lay activists, has promoted concepts central to civil society.

This illuminating new book presents a series of in-depth case studies from around the world based on numerous personal interviews with organizational leaders and focusing on their journey towards sustainability. The aim is to provide visions of a more sustainable future, and shed light on the path, milestones and solutions – in particular the management processes these organizations employed – to provide a reliable compass that others can follow. Although each organization must take steps to fit its particular circumstance, business conditions and culture, Mapping the Journey proves that valuable lessons can be learned by setting aside critique as to where these organizations may yet make progress and instead focusing on the guidelines, targets, measures of success, tools and techniques and valuable wisdom about how pioneer organisations are travelling toward a prosperous, sustainable future. Each

organization included has crafted its own unique strategic responses to an identified need for increased sustainability. While none can be said to have reached the endpoint of a sustainable development strategy, all have found that, by addressing the challenge of sustainable industrial practices, they have found innovative solutions, new opportunities for revenue generation, better relationships with customers, new business and product opportunities and a boost to morale from the executive ranks to front-line employees. Mapping the Journey examines both public and private organizations worldwide: SJ Rail of Sweden; Sony Corporation; SC Johnson; TransAlta Corporation; Patagonia; Henkel; Volvo; ASG; Interface Flooring Systems; Suncor; DaimlerChrysler; AssiDoman; Germany's Centre for Technology Assessment and the Dutch National Environmental Policy Plan. These case studies provide an inspiring
