According to the DAMA Dictionary
of Data Management, a data
dictionary is: “ A place where
business and/or technical terms
and definitions are stored.

Typically, data dictionaries are
designed to store a limited set of
meta-data concentrating on the
names and definitions relating to
the physical data and related
objects. “ .

association of business and technical professionals that is dedicated to the advancement of data resource management (DRM) and information resource management (IRM).

What is the Data Management Association (DAMA ...

SE: The original DAMA Dictionary was published in 2008 as sort of a pre-cursor to the DMBOK. Having a dictionary/glossary was the first step towards a common vocabulary for data management. The audience was all of the Data Management profession – sort of a first baby step to creating standards that other professions enjoy.
