Mexico has occupied the limelight when it comes to media attention focusing on drug-related violence in Latin America. However, it is actually Central America's Northern Triangle – consisting of Guatemala, Honduras and El Salvador – currently experiencing much higher rates of violence and increasing Drug Trafficking Organization (DTOs) activity, thus providing an illustration of the 'balloon effect' previously experienced by Mexico itself after the implementation of Plan Colombia which ...

~~The Northern Triangle's drugs-violence nexus~~  
The prioritization of imprisonment as a response to drug use in many countries has led to growing prison populations, with little impact on drug use, drug-related harm, or drug-related crime. There is increased international debate around how to best manage and respond to at-risk populations, with good evidence to suggest that embracing harm reduction strategies in the community and in prison ...

~~The Drugs/Violence Nexus: A Tripartite Conceptual Framework~~  
All the drugs considered--cannabis, cocaine, and alcohol binge drinking--are significantly related to violent behavior; whether the perpetrator or the victim. The most noteworthy difference may be that in Ontario, drug use appears to be even more highly correlated with violence than in the United States.

~~The drugs-violence nexus among American and Canadian youth~~  
Little research has focused on the drugs-violence nexus in rural areas. As such, the purpose of this study was to use Goldstein's (1985) tripartite conceptual framework to examine the relationship between drugs and violence among felony probationers in rural Appalachian Kentucky (n=800). Data on demographics, substance use, criminal history, and violence were collected between 2001 and 2004 using an interviewer-administered questionnaire.

~~The drugs-violence nexus among rural felony probationers~~  
The drugs-violence nexus has emerged as a specific theoretical paradigm from social science research used to understand the relationship between illegal drugs and violence in communities (De La Rosa, Lambert & Gropper 1990; McBride 1981).
