By working together we were able to come up with multiple themes and symbols that we considered to be the most important to discuss. " The House That Race Built " has given us the unique opportunity to take two novels impacted by race, racism and slavery and find their similarities.

The House That Race Built

The House that Race Built: Critical Pedagogy, African-American Education, and the Re-Conceptualization of a Critical Race Pedagogy. Critical pedagogy has been widely characterized as a crucial construct in challenging the inequalities that have evolved in the context of schooling in the U.S. Evidence of this can be found in critical pedagogy's attempt to offer critique of the analytic connections between race and education within the context of the African-American struggle for humanity.

**#1 NEW YORK TIMES BESTSELLER • OPRAH ’ S BOOK CLUB PICK • NATIONAL BOOK AWARD LONGLIST** “ An instant American classic and almost certainly the keynote nonfiction book of the American century thus far. ” —Dwight Garner, The New York Times The Pulitzer Prize — winning, bestselling author of The Warmth of Other Suns examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. **NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY People • The Washington Post • Publishers Weekly AND ONE OF THE BEST BOOKS OF THE YEAR BY** The New York Times Book Review • O: The Oprah Magazine • NPR • Bloomberg • Christian Science Monitor • New York Post • The New York Public Library • Fortune • Smithsonian Magazine • Marie Claire • Town & Country • Slate • Library Journal • Kirkus Reviews • LibraryReads • PopMatters Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist “ As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not. ” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people ’ s lives and behavior and the nation ’ s fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball ’ s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious underow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, Caste: The Origins of Our Discontents is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

In White Innocence Gloria Wekker explores a central paradox of Dutch culture: the passionate denial of racial discrimination and colonial violence coexisting alongside aggressive racism and xenophobia. Accessing a cultural archive built over 400 years of Dutch colonial rule, Wekker fundamentally challenges Dutch racial exceptionalism by undermining the dominant narrative of the Netherlands as a "gentle" and "ethical" nation. Wekker analyzes the Dutch media's portrayal of black women and men, the failure to grasp race in the Dutch academy, contemporary conservative politics (including gay politicians espousing anti-immigrant rhetoric), and the controversy surrounding the folkloric character Black Pete, showing how the denial of racism and the expression of innocence safeguards white privilege. Wekker uncovers the postcolonial legacy of race and its role in shaping the white Dutch self, presenting the contested, persistent legacy of racism in the country.

**#1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME ’ S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH ’ S " BOOKS THAT HELP ME THROUGH "** • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as " required reading," a bold and personal literary exploration of America ’ s racial history by " the most important essayist in a generation and a writer who changed the national political conversation about race " (Rolling Stone) **NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE ’ S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY** The New York Times Book Review • O: The Oprah Magazine • The Washington Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation ’ s history and current crisis. Americans have built an empire on the idea of " race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between the World and Me is Ta-Nehisi Coates ’ s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children ’ s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

Winner of the Stowe Prize Winner of the NBCC Prize for Nonfiction This compelling #1 New York Times bestseller examines the legacy of slavery in America—and how both history and activism continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

This book examines the role of Scottish Enlightenment ideas of belonging in the construction and circulation of white supremacist thought that sought to justify British imperial rule. During the 18th century, European imperial expansion radically increased population mobility through the forging of new trade routes, war, disease, enslavement and displacement. In this book, Onni Gust argues that this mass movement intersected with philosophical debates over what it meant to belong to a nation, civilization, and even humanity itself. *Unholy Empire* maps the consolidation of a Scottish Enlightenment discourse of 'home' and 'exile' through three inter-related case studies and debates: slavery and abolition in the Caribbean, Scottish Highland emigration to North America, and raising white girls in colonial India. *Playing out* over poetry, political pamphlets, travel writing, philosophy, letters and diaries, these debates offer a unique insight into the movement of ideas across a British imperial literary network. Using this rich cultural material, Gust argues that whiteness was central to 19th-century liberal imperialism's understanding of belonging, whilst emotional attachment and the perceived ability, or inability, to belong were key concepts in constructions of racial difference.

Eighteen essays by prominent scholars reflect on the cultural, historical, political, personal, legal, sexual, and linguistic implications of the Thomas hearings and Hill's accusations

The twenty-fifth-anniversary edition of the groundbreaking classic, with a new introduction First published in 1993, on the one-year anniversary of the Los Angeles riots, *Race Matters* became a national best seller that has gone on to sell more than half a million copies. This classic treatise on race contains Dr. West ’ s most incisive essays on the issues relevant to black Americans, including the crisis in leadership in the Black community, Black conservatism, Black-Jewish relations, myths about Black sexuality, and the legacy of Malcolm X. The insights Dr. West brings to these complex problems remain relevant, provocative, creative, and compassionate. In a new introduction for the twenty-fifth-anniversary edition, Dr. West argues that we are in the midst of a spiritual blackout characterized by imperial decline, racial animosity, and unchecked brutality and terror as seen in Baltimore, Ferguson, and Charlottesville. Calling for a moral and spiritual awakening, Dr. West finds hope in the collective and visionary resistance exemplified by the Movement for Black Lives, Standing Rock, and the Black freedom tradition. Now more than ever, *Race Matters* is an essential book for all Americans, helping us to build a genuine multiracial democracy in the new millennium.

The racist legacy behind the Western idea of freedom The era of the Enlightenment, which gave rise to our modern conceptions of freedom and democracy, was also the height of the trans-Atlantic slave trade. America, a nation founded on the principle of liberty, is also a nation built on African slavery, Native American genocide, and systematic racial discrimination. *White Freedom* traces the complex relationship between freedom and race from the eighteenth century to today, revealing how being free has meant being white. Tyler Stovall explores the intertwined histories of racism and freedom in France and the United States, the two leading nations that have claimed liberty as the heart of their national identities. He explores how French and American thinkers defined freedom in racial terms and conceived of liberty as an aspect and privilege of whiteness. He discusses how the Statue of Liberty—a gift from France to the United States and perhaps the most famous symbol of freedom on Earth—promised both freedom and whiteness to European immigrants. Taking readers from the Age of Revolution to today, Stovall challenges the notion that racism is somehow a paradox or contradiction within the democratic tradition, demonstrating how white identity is intrinsic to Western ideas about liberty. Throughout the history of modern Western liberal democracy, freedom has long been white freedom. A major work of scholarship that is certain to draw a wide readership and transform contemporary debates, *White Freedom* provides vital new perspectives on the inherent racism behind our most cherished beliefs about freedom, liberty, and human rights.
