Drawing on more than four decades of experience as a researcher and teacher, Howard Becker now brings to students and researchers the many valuable techniques he has learned. *Tricks of the Trade* will help students learn how to think about research projects. Assisted by Becker's sage advice, students can make better sense of their research and simultaneously generate fresh ideas on where to look next for new data. The tricks cover four broad areas of social science: the creation of the "imagery" to guide research; methods of "sampling" to generate maximum variety in the data; the development of "concepts" to organize findings; and the use of "logical" methods to explore systematically the implications of what is found. Becker's advice ranges from simple tricks such as changing an interview question from "Why?" to "How?" (as a way of getting people to talk without asking for a justification) to more technical tricks such as how to manipulate truth tables. Becker has extracted these tricks from a variety of fields such as art history, anthropology, sociology, literature, and philosophy; and his dazzling variety of references ranges from James Agee to Ludwig Wittgenstein. Becker finds the common principles that lie behind good social science work, principles that apply to both quantitative and qualitative research. He offers practical advice, ideas students can apply to their data with the confidence that they will return with something they hadn't thought of before. Like *Writing for Social Scientists*, *Tricks of the Trade* will bring aid and comfort to generations of students. Written in the informal, accessible style for which Becker is known, this book will be an essential resource for students in a wide variety of fields. "An instant classic. . . . Becker's stories and reflections make a great book, one that will find its way into the hands of a great many social scientists, and as with everything he writes, it is lively and accessible, a joy to read."—Charles Ragin, Northwestern University

"Anthropology has always traded on a cachet of romance and exoticism in attracting students, but even I—grizzled veteran that I am—found myself thinking 'how very cool to be hanging out with magicians in Paris!'. There is certainly nothing like this book in the anthropological literature. It is fascinating and thoroughly enjoyable." —Richard Bauman, Distinguished Professor Emeritus, Indiana University, Bloomington "A witty, learned, engaging trip through the world of French magic, *Trade of the Tricks* builds intriguing ideas on the deep knowledge that comes from prolonged, intensive observation." —Howard Becker, author of *Art Worlds* and *Outsiders*

. . . DIE BY THE GUN Clint Adams knows that the average gunfighter doesn't live to a ripe old age. Making a living from slapping leather will do that. Over the years, "Two-Cent" Luke Drogan has put down more men than most undertakers. With ice for blood and nerves of steel, he has survived a lifetime of hot lead, leaving bodies in his wake.
