According to author and professor Roger Rosenblatt, writing is not worth much “ unless it moves the human heart. ” As far as I am concerned, that standard should apply to all forms of art, and video games, my friends, are an art form. In my experience, few games have illustrated the ability to inspire emotion more profoundly than The Last of Us.

From Roger Rosenblatt, author of the bestsellers Making Toast and Unless It Moves the Human Heart, comes a moving meditation on the passages of grief, the solace of solitude, and the redemptive power of love In Making Toast, Roger Rosenblatt shared the story of his family in the days and months after the death of his thirty-eight-year-old daughter, Amy. Now, in Kayak Morning, he offers a personal meditation on grief itself. “ Everybody grieves, ” he writes. From that terse, melancholy observation emerges a work of art that addresses the universal experience of loss. On a quiet Sunday morning, two and a half years after Amy ' s death, Roger heads out in his kayak. He observes, “ You can ' t always make your way in the world by moving up. Or down, for that matter. Boats move laterally on water, which levels everything. It is one of the two great levelers. ” Part elegy, part quest, Kayak Morning explores Roger ' s years as a journalist, the comforts of literature, and the value of solitude, poignantly reminding us that grief is not apart from life but encompasses it. In recalling to us what we have lost, grief by necessity resurrects what we have had.

Fiends created by man achieve man's detestable covert scheme under the auspices of two megacorporations. Meanwhile terrorized residents on Picasso Lane know that three of their girls are kidnapped by escaped grotesque, blood thirsty beasts. Brave, loving fathers band together to war with them that interact inside five ominous storm drain tunnels underneath the city of Brownsville, Texas.

Rare books in the Rabbi's office reveal Jewish Holocaust truths not taught in schools, and 30 years later she lives to see it happen.

From O magazine to the New York Times, from authors such as E. L. Doctorow to Ann Beattie, critics and writers across the country have hailed Roger Rosenblatt's Making Toast as an evocative, moving testament to the enduring power of a parent's love and the bonds of family. When Roger's daughter, Amy—a gifted doctor, mother, and wife—collapses and dies from an asymptomatic heart condition at age thirty-eight, Roger and his wife, Ginny, leave their home on the South Shore of Long Island to move in with their son-in-law, Harris, and their three young grandchildren: six-year-old Jessica, four-year-old Sammy, and one-year-old James, known as Bubbies. Long past the years of diapers, homework, and recitals, Roger and Ginny—Boppo and Mimi to the kids—quickly reaccustom themselves to the world of small children: bedtime stories, talking toys, play-dates, nonstop questions, and nonsequential thought. Though reeling from Amy's death, they carry on, reconstructing a family, sustaining one another, and guiding three lively, alert, and tenderhearted children through the pains and confusions of grief. As he marvels at the strength of his son-in-law and the tenacity and skill of his wife, Roger attends each day to "the one household duty I have mastered"—preparing the morning toast perfectly to each child's liking. Luminous, precise, and utterly unsentimental, Making Toast is both a tribute to the singular Amy and a brave exploration of the human capacity to move through and live with grief.

A man craves revenge against a young woman and uses his enormous canine that, in the end, yearns to kill her. Which one survives?

People never learn. They make the same mistakes generation after generation. So here are the things that everyone should learn about life, then hope to remember. With a wry sense of humour, Rules for Ageing presents the most realistic, practical, pleasurable and, most importantly, painless advice you will ever receive. This book offers timeless advice for anyone still young enough to learn, and richly amusing reflections on life for those who have seen it all before.

A terrified family try to escape from their home where violent flood waters engulf the entire house - no roof in sight. While in the struggle for their lives, the realization of how much they mean to each other dominates terror.

Harry March is something of a wreck and more than half nuts. Up until now, he has lived peacefully on an island in the Hamptons with his talking dog, Hector, a born-again Evangelical and unapologetic capitalist. But March ' s life starts to completely unravel when Lapham—an ostentatious multimillionaire who made his fortune on asparagus tongs—begins construction of a gargantuan mansion just across the way. To Harry, Lapham ' s monstrosity-to-be represents the fetid and corrupt excess that has ruined modern civilization. Which means, quite simply, that this is war.

From the award-winning and bestselling author of *Cod* comes the dramatic, human story of a simple substance, an element almost as vital as water, that has created fortunes, provoked revolutions, directed economies and enlivened our recipes. Salt is common, easy to obtain and inexpensive. It is the stuff of kitchens and cooking. Yet trade routes were established, alliances built and empires secured – all for something that filled the oceans, bubbled up from springs, formed crusts in lake beds, and thickly veined a large part of the Earth’s rock fairly close to the surface. From pre-history until just a century ago – when the mysteries of salt were revealed by modern chemistry and geology – no one knew that salt was virtually everywhere. Accordingly, it was one of the most sought-after commodities in human history. Even today, salt is a major industry. Canada, Kurlansky tells us, is the world’s sixth largest salt producer, with salt works in Ontario playing a major role in satisfying the Americans’ insatiable demand. As he did in his highly acclaimed *Cod*, Mark Kurlansky once again illuminates the big picture by focusing on one seemingly modest detail. In the process, the world is revealed as never before.
