STEP 1. Determine which Laboratory Analyst Certification is required. The type of laboratory analyst certification required is simply determined by the type of laboratory work that the analyst performs. In Georgia, all those performing water analyses on drinking water samples should obtain a Water Laboratory Analyst certification, and all those performing analyses on wastewater samples should obtain a Wastewater Laboratory Analyst certification.

Laboratory Analysts Certification - GWWI

OWEA Voluntary Laboratory Certification Program. In the 1980's the Ohio Water Environment Association was concerned about the control of the quality of analysts working in our treatment plants and established a voluntary certification program for laboratory analysts. This program has met with success over the years and now, although not mandated by the State, many facilities require their analysts to have OWEA Laboratory Certification.
