Law is a system of rules created and enforced through social or governmental institutions to regulate behavior, with its precise definition a matter of longstanding debate. It has been variously described as a science and the art of justice.

Law - Wikipedia

About What About Law? Most young people considering studying law, or pursuing a legal career, have very little idea of what learning law involves and how universities teach law to their students. The new edition of this book, which proved very popular when first published in 2007, provides a 'taster' for the study of law; a short, accessible presentation of law as an academic subject, designed to help 17- and 18-year old students and others decide whether law is the right choice for them as ...

What About Law?: Studying Law at University: Catherine ...

Law is about reason – argument, logic, facts and evidence are its daily bread and butter. Now of course, behind that reason will often be the power of conservative reaction, willing and able to deploy the force of authority to crush dissent. Law will always be, and almost by definition is, wedded to preservation of the status quo.

What is law? | The British Academy

The law is a system of rules that a society or government develops in order to deal with crime, business agreements, and social relationships. You can also use the law to refer to the people who work in this system.
