Writing to Heal By Vivé Griffith For nearly 20 years, Dr. James W. Pennebaker has been giving people an assignment: write down your deepest feelings about an emotional upheaval in your life for 15 or 20 minutes a day for four consecutive days. Many of those who followed his simple instructions have found their immune systems strengthened.

Writing is no stranger to therapy. For years, practitioners have used logs, questionnaires, journals and other writing forms to help people heal from stresses and traumas. Now, new research suggests expressive writing may also offer physical benefits to people battling terminal or life-threatening diseases.

I discovered Writing to Heal over 10 years ago. I used it then to get through a particularly rough time in my professional life. More recently, I took a course through the Therapeutic Writing Institute, and we used this book for part of our work. Again, I was astounded at how effective his four-day timed journal entries are.

~~Writing to Heal: Pennebaker, James: Amazon.com: Books~~

James Pennebaker, the author of Writing to Heal says that, “Writing dissolves some of the barriers between you and others. If you write, it’s easier to communicate with others.” He does have one rule that he calls, “the flip out rule,” which proclaims that if you get too upset when writing, then simply stop.
