Not only mechanical engine and gear, but also mechanical engine with electric gear, and electronic engine with mechanical gear. What is the power requirement for electronic controls? All ZF control systems use either 12 or 24 VDC supplied power. For applications using electronic shift, the input voltage to the processor must be equivalent to the voltage required by the shift solenoid. The ...

The Service Manual introduces the ZF
4WG200(4WG158?6WG200 also applied)transmission
removal and assembling process and offers the transmission
service process technology and standard requirements, which
can help the service personnel understand the transmission
removal and assembling methods more profoundly as well as
lay a solid technical foundation for the service personnel to
correctly judge the malfunction and do troubleshooting.
