

# Welcome...

To Ohio's Amish Heartland, home of the largest concentration of Amish in the world. July is fireworks, fireflies and family reunions. It's kids running through picnics and as the old saying goes, the corn is "knee high by the Fourth of July."

This is the season to sit on the front porch with a glass of lemonade and enjoy the evening song of the robin. It's the season to begin to taste the fruits of your labor...the gardens are coming alive with fresh produce and it is the season to take a trip to Amish Country!

Take time to drive through the lush rolling hills. If you're in the market

for some new furniture – as many who visit our area are – visit our advertisers to find the best furniture around.

We hope you enjoy your visit here. Relax and enjoy the summer with us. Also, while you're here, *please* drive safely; you're sharing narrow, winding roads with folks walking or biking, as well as slow-moving, horse-drawn vehicles. Please remember to respect the beliefs of the Amish people, and refrain from taking close-up photographs.

Thanks for coming to the Amish Heartland in July! *Do come again soon!*
